Prohibited Copies

The law prohibits using copies to replace or substitute for anthologies, consumable works or compilations or collective works. Consumable works include: workbooks, exercises, standardized tests, test booklets and answer sheets. Teachers cannot substitute copies for the purchase of books, publishers' reprints or periodicals; nor can they repeatedly copy the same item from term to term. Copying cannot be directed by a higher authority; and students cannot be charged more than the actual cost of photocopying.

The schools must be licensed to play copyrighted music where the performer is paid or admission is charged, even if the admission is used to cover refreshment costs.

Juke boxes must be licensed, and a certificate of license must be displayed on each machine.

Off-Air Recordings

Broadcast programs may be recorded off-air simultaneously with broadcast transmission and retained by the school for a period not to exceed forty-five (45) consecutive calendar days after the date of recording. After this period of time, all recordings must be erased or destroyed immediately.

Program recordings may be used once by individual teachers in the course of relevant teaching activities, and repeated once only when instructional reinforcement is necessary, during the first ten (10) consecutive school days in the forty-five (45) calendar day retention period.

After the first ten (10) consecutive school days, off-air recordings may be used up to the end of the forty-five (45) calendar day retention period only for evaluation purposes by the teacher.

Off-air recordings may be made only at the request of and use by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

Off-air recordings need not be used in their entirety; but they may not be altered from their original content and may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. Such recording must include the copyright notice on the broadcast program as recorded.

Videotapes/Optical Discs/Distance Learning/Audio-Visual Delivery Devices

A library, archive, or media center may reproduce one (1) copy of a recording of a copyrighted work and distribute it in accordance with provisions of law. Recorded copies of copyrighted programs owned by a staff member or another person or a copy of a rental program are considered illegally made and may not be used for instructional purposes unless its use meets the fair-use test.

Rental videocassettes, laser discs and other optical media with the "home use only" warning label may not be used in a classroom, school assembly, or club unless specifically covered in the rental agreement.

Multimedia use of copyrighted material falls under the guidelines of the medium being used (e.g. computer, video, audio).

Distance learning is subject to copyright guidelines if copyrighted material is copied or recorded during a transmitted lesson.

Closed-circuit distribution of a copyrighted work to classrooms in a school or campus is legal, as long as the transmission is used for instructional activity and not entertainment.

Off-air taping of broadcast programs is permitted to educational institutions for programs broadcast to the general public. Pay cable TV services and satellite broadcasts available at an extra charge are not allowed without permission from the copyright owner.

Certain restrictions for taping off-air broadcasts apply:

1. A recorded program can be used only twice within the first ten (10) school days following the broadcast; the second time is only for reinforcement purposes.
2. After using the recorded broadcast as stated above, the recorded program can be used by teachers only for evaluation purposes and must be erased at the end of forty-five (45) calendar days following the broadcast.
3. No program may be taped a second time by/for a given teacher, even if rebroadcasted.
4. Satellite reception of programming is subject to the same guidelines as off-air broadcasts.

Computer Software

It shall be the intent of the Carbon Career and Technical Institute to adhere to the provisions of the copyright law and to comply with the license agreements and/or policy statements contained in software packages owned and used by the school.

When software is to be used on a disk sharing system, every effort will be made to secure this software from being copied.

Copies of software, including those downloaded via modem, other than "public domain" software, cannot be made without the permission of the vendor or copyright owner.

Illegal copies of copyrighted programs may not be made or used on school equipment.

A computer program may be legally copied only for the following reasons:

1. It is created as an essential step in the use of the computer program, such as automatic copying into memory when a program is loaded.
2. It is created as a backup or archival copy only. All backup and archival copies must be destroyed in the event the original program is erased or removed from inventory.

Backup or archival copies may not be used simultaneously with the original program.

Copying a copyrighted program from a computer hard drive to a floppy disc, for use as an additional copy, is illegal.

Networking computer software is also illegal if the legal multiple user or site licenses have not been acquired from the vendor or copyright owner. Networking is the use of a single program in a single computer that is connected to other computers, permitting the program to be used simultaneously in more than one computer.

Reproduction of original computer software manuals is also illegal, and copying must abide by the fair use guidelines.

<p>Federal Regulations P.L. 94-553</p>	<p>The school will provide expenditures for software as a budgetary item. Priority will be given to software that supports and/or is critical to curriculum or operating needs. All other software will be purchased if reasonable need is established and/or financial resources allow such purchase.</p> <p>Renting or leasing original copies of software by individuals without the express permission of the copyright owner is illegal.</p> <p>To the extent possible, instruction related to the legal and ethical consideration of software copyright shall be included within the curriculum of all school programs.</p>
